CAREER OBJECTIVE

Striving for a dynamic role as a Software Programmer, aiming to leverage my skills in software development, design, and maintenance to precisely address clients' specific requirements. Eager to collaborate with a driven team of individuals, sharing a commitment to achieving common goals.

EXPERIENCE

- Jr. Software Engineer** Sep 2022 - Current
DOM-INNO Development Ltd., Dhaka, Bangladesh

Played a significant role in development of an ERP system using ASP.Net Core Web API, MS SQL, Angular14, Bootstrap5, HTML5, CSS3, and Json. Upheld professional coding standards, contributing to efficient system performance and scalability

Collaborated effectively with cross-functional teams, fostering communication and streamlined project execution.
Played a significant role in optimizing data storage and retrieval through active involvement in the database design process within the ERP system. Demonstrated versatility by actively engaging in both frontend and backend development tasks.
Attended and contributed to project meetings, aligning technical solutions with business requirements for optimal outcomes.

SKILLS

- | | | |
|--------------------|---------|--------------|
| • C# | MS SQL | Bootstrap5 |
| • ASP.NET Core | RDLC | C |
| Web API | Angular | • C++ |
| • Entity Framework | • Json | • IIS Server |
| • ASP.NET MVC | • CSS3 | • Git |
| • TypeScript | • HTML5 | • TFS |

EDUCATION

Bachelor of Science: Computer Science & Engineering

Uttara University,
Dhaka

Diploma In Engineering: Computer Science & Engineering

Kushtia Polytechnic Institute

CGPA:- 3.16 Out of 4.00

Passing Year:- 2019

Dakhil: Science

Chuadanga Fazil Degree
Madrasha,

GPA:- 4.56 Out of 5.00

Passing Year:- 2015

CERTIFICATIONS

- Certification by IsDB-BISEW On Web Application Development (Asp.NET)
- Programming in C&C++ Corse by National Engineering Development

PROJECTS

Enterprise Resource Planning (ERP) System

Technical Tools:

C#, ASP.Net Core Web API, Anular14, Json, Html, Css, Bootstrap5, Entity Framework, MS SQL, RDLC, Git

Key Features:

- Implemented robust authentication measures to ensure data security.
- Developed powerful and reliable backend functionality using C# for seamless ERP system operations.
- Utilized LINQ for efficient data querying and manipulation.
- Designed and implemented stored procedures and functions in the database.
- Followed the Repository Pattern for a structured Data Access Layer (DAL) and Business Logic Layer (BAL).
- Ensured code maintainability and scalability through the use of dependency injection System.
- Optimized data access with Entity Framework and LINQ for efficient and readable code.
- Collaborated with frontend development to integrate Angular14 and Bootstrap4 seamlessly for a cohesive user interface.
- Utilized Git for organized version control, facilitating team collaboration, and maintaining a structured and efficient development workflow.
